

Setting captives free - Part 3**2nd May 2013****Strategy for Brother Randy.**

Hi brother, I am so sorry that you have to wait so long for your completed strategy. I just have so many people to see, there is just so much hurt and evil in the world today, and like JESUS said : *"The labourers are few"*, Luke 10/2 and in the very next verse, HE says that we are *"lambs among wolves"*. And they are very ferocious wolves brother, ripping people apart, destroying relationships, building walls between children and parents, walls so high, its hard to climb over, almost impossible to break down, was it not for the Power of The HOLY SPIRIT and The Love of JESUS.

Just last week I was asked by a young lady's mom to see her and find out whether she was a lesbian or not. We were to stay and sleep over at their house, which was good, because I had to pick up some spare parts for my pick-up the next day. We went to bed that night, sleeping in the young lady's room. A few things bothered me. She had some posters on her walls, mostly of scantily dressed females singers and actresses. One particularly seemed to stand out, a full length picture of Lindsay Lohan, a well known lesbian singer, from Britain, I believe, seemed to dominate the room. And then, directly above our heads, the diamond shaped superman logo, with the serpent "s" inside.

At about 2 am, I suddenly woke up and found myself looking straight into the face of a demon, sitting on his haunches against the closet door. I looked at him for a moment and then turned my back on him and went back to sleep. I knew it would be senseless to cast him out, while the inhabitants of that house were all unsaved, church goers. He would just come back a few days later and bring 7 others, worse than himself. I first had to make sure of them getting born again. I prayed with them the next day, and now I believe their pastor is going to baptize them this weekend. Then I will go back and do the necessary spiritual work.

My next encounter with a paranoid schizophrenic came from a very unexpected source. A Jewish psychiatrist, Dr. "K", (this 70 year old lady was the Superintendent of a very large mental hospital), called me and said that she heard I could possibly help her. Her 40 year old daughter would bark like a dog and bite her. She said that she had prepared a musical treatment for mental patients that was even used successfully in the USA, but she could do nothing for her own daughter who, she believed, was demon possessed.

I told her that I would come the next evening around 7 as I first wanted to hear from The LORD. As her mother told me that she would be fine one day, then the very next day she would be extremely depressed, the next day, very aggressive, to the point where she would bark and bite like a dog, I was positive that this person was schizophrenic.

The following evening I took 2 precious men of GOD with me to intercede while I was dealing with the situation. At the time, South Africa was caught in the grips of a very cold winter, and it was raining like it was never going to stop again, when we got to our destination.

Dr. K let us in and her daughter came out of her bedroom just as we entered the sitting room, growling and spitting at us. I said ; "Shut up demon", and she turned around and went back into her room.

The doctor then told us that her husband, also a psychiatrist, and head of the biggest mental hospital in the city, had recently passed away and actually died in their daughter's arms. On my question, whether her daughter immediately experienced mental problems, she answered; "Yes, the very next day she started acting strangely, but she got worse at the funeral and someone had to take her home".

I then proceeded to share the Gospel with Dr.K and told her that we will drive out the demons, but only in JESUS name. She protested, saying that it must be done in GOD's Name. I then asked her to leave the room and make us some tea because it was so bitterly cold and we would have to pray in JESUS Name and that she would be a hindrance to us. Rude brother?? Not very subtle, I admit brother, but when we are given a task by The LORD, we

go ahead and do it. When HE sent out the 72, in Luke 10/4, HE told them to not even greet people on the way, but to go get on with the job. See my beloved brother, demons are very clever and can so easily bring enmity between you and the people involved. In 2nd Kings 4/29, Elisha gives the same instruction to Gehazi. We started praying and The Power of The LORD came down into that

Jewish home and I knew we were (how do the Americans say??)going to kick butt tonight.

A couple of minutes later Dr.K came in with a tray of tea, she stopped in her tracks, looked around her, somewhat bewildered and asked; "Who turned on the heater"? Brother, she experienced the Anointing as heat, the first time in her life she encountered The GOD of the Jews in a personal way. She put down the tray, started crying and said; "I can see it now, JESUS is my peoples' Messiah, please forgive my sins LORD JESUS".

I then said to her; "Go into that room and say...demons, in The Name of JESUS of Nazareth, the only begotten SON of GOD, get out of my daughter right now, Amen, let it be so".

We departed immediately and left her with her demon possessed child, asking her to call me the next morning and, yes brother, you guessed it. That Jewish lady was so full of GOD Almighty's Power that no demon was going to stand against her. She called the next morning and a few times after that to confirm her daughters victory, PRAISE HIS WONDERFUL NAME!!! But we did not leave her on her own, she had to be baptized and taught according to The LORD JESUS' commission in Matthew 28/19 and 20 so we got a wonderful pastor, who lived much closer to her, to take over from us and he did a wonderful job.

Now brother Randy, again we did not really understand the mind and the proper way of dealing with schizophrenics, but The LORD was so graceful and understanding of our insufficient knowledge, that HE came through for us nevertheless. We could have been in serious trouble, was it not for the Glorious and timely appearance of The Precious HOLY GHOST. Through this experience I have learned to never trust my own abilities and knowledge and to always WAIT for The Power from on high. The following story illustrates the folly in being overly confident in one's own ability.

One day we were visiting with friends at a beautiful river mouth estuary, White Sands, where we had been testifying about the goodness of JESUS, and a lovely peaceful atmosphere was in the room with us, when a young woman and her 2 lovely children walked in. I immediately felt an evil presence in the room and the lovely atmosphere was suddenly gone. This young woman got up after a few minutes and walked towards the kitchen, and as she walked by me, I was shocked. I saw a small demon, about knee-high, hanging onto the bottom of her short pants, looking at me with so much evil and hatred, and at the same time, challenging me to try and do something about the situation. I said to the lady; "Do you know that there is a demon hanging onto you"?

"Oh yes, I know and don't try to chase him away, he will really hurt you. Many pastors have tried to cast him out and they had to give up, because he is really very evil. And by the way, I like him because he protects me".

"Hurt me, no way. I am going to chase him now and he is going to run". At this point he disappeared and I thought he wanted to hide, knowing what was coming, BUT brother, the next moment he hit me on the nose, so hard that the blood just poured out and I was quite dizzy for a moment. The lady then said; "Do you see now? You have made him angry and now he is really going to hurt you".

At this point, I got up to face this demon, who would dare challenge the soldier of The LORD, but immediately, he kicked me in the groin, so hard, that I doubled over and immediately called upon the blood of JESUS to cover me, while I gained my self respect.

The lady then said; "I am rather going home before you really get hurt", and with that she walked out. I then told her that I am not leaving White Sands before I cast that demon out. She just smiled and said; "You're welcome to try, but you are warned, don't forget".

I turned back to the house, and told my friends that I was going to spend a little time with The LORD and then I am going to set that lady free.

Brother, 20 minutes later it was a different man who crossed the street, full of The Power and Fire of The HOLY GHOST. She was sitting in front of the TV when my wife and I walked in, the house filled with the evil presence of many demonic spirits. I asked permission to walk through the house to see whether there were any occultic altars and found quite a number of African masks and other occultic effigies. Brother Randy, these African masks are particularly evil.

We have a very evil African professor at one of our traditionally black universities who spoke on television one night saying; "We become the entity, when we put on the mask and the woman sangomas(witch doctors) start ululating, because the masks are inhabited with the departed spirits of our wonderful forefathers". Forefathers???Demons my brother.

I then took all those masks and other occultic objects outside and went back to her and stood right in front of her, while she was still sitting in front of the tv. I took out my bottle of anointing oil and her arm shot out and grabbed my right hand in a vice-like grip, saying; "You're not coming near me with the oil". I heard the voice was not hers, that it was a demon speaking and I tried to free my hand but could not. Then I said to the demon; "Ok, I will not anoint her with oil", and he released my hand immediately, not knowing that I had already poured some oil in my left hand.

I quickly walked round the couch and, standing behind her, I anointed her forehead with oil commanding the *spirit of lust* and also the *spirit of sexual impurity* to leave her immediately. They went out with much cursing, spitting and loud winds coming from her stomach. At this point she slumped over in the couch, leaving us a lot of opportunity to cast out the remaining spirits, and there were many.

Then we shared the Gospel, she repented, we baptized her in the river the next day and I believe she was baptized in The HOLY SPIRIT shortly after. But, that night, after the demons were cast out, we sat with her until her husband got home from work. Her son had, in the mean time, gone to his father and told him everything. When he came from work, we were standing at the front gate. He smiled and asked me if the "little man" was gone and said he was so glad to have his wife back again, because they had been sleeping in different rooms for more than 2 years.

Now Randy, the lady was not schizophrenic but had many demons inside of her. In this little episode I learned to "watch and pray" and to be under the protecting power of The Blood of CHRIST always, and not to rely on own knowledge and experience. In the ministry of schizophrenics, it is very important to remember that.

Unfortunately, I must stop here again and get back to my pick-up because I will be needing transport tomorrow night to go and minister to someone about 55 miles from here. Will get back to this later tonight and do my utmost to complete it for you. I know you are in such a hurry to go and help those dear people and I am really very sorry to leave you in the lurch my brother. In the meantime, I would suggest you get to know the young man really well and maybe write down what you observe and write me so I can also pray about it. Shalom and agape!!
